

How to Get the Most Out of This Course

- Go through this training **using a Laptop or a PC (NOT a smartphone)**
- Go through the course **in the order I have provided!**
- For each major topic:
 - a. Watch the video;
 - b. Practice simultaneously with me and if necessary repeat this process;
 - c. Look at slides and command sections to deeply understand each concept;
 - d. Test your knowledge with **quizzes** and **practice tests** I've provided;
 - e. If there is something not clear get in touch with me or with other students. Use the Q&A section of the course or write in our FB private group!
- Give yourself a lot of time!
- **Try to practice everyday!**
